A watercolorist for the past forty years, Dr. Joseph Robinson studied with the late, great **Edgar Whitney**, “**Dean of Watercolor Painting**” for more than twenty of those, and to this attributes much of his success. He has since acquired recognition as both watercolorist and teacher.

A ten times prize winner at New York’s **Greenwich Village Art Show**, Joe Robinson captured the prestigious **Forbes Magazine Award**, the coveted **Whitney Award**, the renowned **Salmagundi Club Award** for excellence and numerous others.

Joe Robinson’s seascapes and landscapes are celebrated for their vivid portrayal, yet uncluttered style. He believes that the artist should strive to express rather than report.
